*Chef*

**CHEFS, ENJOY YOUR PASSION!**  
*Authenticity for your creativity.*

# ***Natural goodness since 1929***

Stock cubes and granular stocks – including organic varieties – seasonings and gravies.

Each of our recipes is the result of a thorough and meticulous process which includes no additives or flavour enhancers and is thought to bring the authentic taste of nature in your kitchen.

Vegan, gluten-free and lactose-free options accompany every dietary habit with natural simplicity.

# *At the service of professionalism*

The best products for professionals, thought to support and simplify your daily work in the kitchen.

Our Chef range is gluten-free, it offers you true and high versatility and has an excellent, real and measurable yield.

Artisanal care, respect for production processes and long production times make our products ideal for creating dishes with an authentic taste, and for better developing your recipes without overpowering flavours.

# Dedicated to professionals

A complete range of products designed to support chefs in every preparation: from first to main courses, from marinades to grilling, from risottos to soups and much more: side dishes, fillings and toppings.

Versatile solutions that enhance the taste of meat, fish, vegetables and mushrooms, allowing the creation of a complete menu with a single, reliable point of reference. Vegan as well!

## Granular Stocks

Authentic granulated stock cubes that dissolve instantly and blend perfectly into your preparations. A versatile and practical help to give natural fullness to every dish.

## Organic Granular Stocks

All the goodness of Bauer Granular Stocks, with ingredients coming from certified organic agriculture and livestock. For those who seek a delicate taste and extra attention to the environment.

## Stock Cubes

Our softest interpretation of flavour, with no additives or preservatives. A timeless classic for broths and more traditional flavours.

GRANULAR STOCKS

ORGANIC GRANULAR STOCKS

VEGETALBRODO

## Gravies

Quick, versatile, with unexpected creaminess. Our gravies can play the main role in your dish, be a delicate help or the perfect finishing touch to better develop any creation.

## Seasonings - Arostina

Premium aromatic blends containing vegetables, herbs and spices that enhance the flavour of meat and fish dishes. Ideal for oven and grill cooking.

## Gulasch

A special, spiced flavour typical of Central European and Northern Italian tradition. Thought to enrich the taste of the finest Hungarian Gulasch, meat stews (including white meats), sauces and ragus.

## Dadocrema

For the most curious and creative of chefs.

The only creamy stock cube: easy to dose, made with vegetable purée, extra virgin olive oil and a pinch of salt. Available in vegetable or meat flavour.

Ideal for truly innovative preparations, even raw!

# Flavour and wellbeing with no compromise

Artisanal care, respect for production processes, long production times and natural ingredients, thoroughly selected and checked: vegetables and herbs, porcini mushrooms, fish and shellfish, valuable vegetable and meat extracts.

No additives or flavourings, not even natural ones, and gluten-free.

An entire organic range of products – “BIO” stock cubes and granular stocks – designed for those seeking an even more conscious nutrition and more delicate flavours.

## Products that speak clearly

YES TO GENUINENESS, YES TO UNCOMPROMISING  
QUALITY, YES TO ORGANIC AGRICULTURE, YES TO  
ARTISANAL CARE.

**LACTOSE-FREE**

**PRESERVATIVE-FREE**

# Our quality is certified

It's not us saying it, it's the several verifications conducted by independent bodies. We believe in the value of our certifications because they are a true guarantee for consumers, a mark of transparency, responsibility and commitment. Towards the environment as well.

DISCOVER MORE

## LEED - Building sustainably

Our headquarters is LEED Italia NC 2009-certified, a standard that certifies the sustainability of buildings. We have achieved the GOLD score: an unprecedented result worldwide!

## UNI EN ISO 9001 - Controlled processes and constant performance monitoring

Our production system is certified by CSQA according to the UNI EN ISO 9001 standard.

## BRC - Food safety at the highest standards

BRC Global Standards certification requires us and our supply chain to meet high standards of food quality and hygiene safety.

## IFS - Quality verified along the entire supply chain

Our ability to produce safe, traceable foods that comply with large-scale distribution requirements is certified by the International Food Standard.

## FAMILY AUDIT - Commitment to employee wellbeing

We are Family Audit certified, a standard that confirms our commitment to promoting the wellbeing of our employees and their working environment.

## PEF - Certified measurement of environmental impact

The European methodology that evaluates and calculates product environmental impact throughout the entire life cycle. At Bauer, we carry out PEF studies on selected products, verified by independent bodies with measured and comparable data.

## ORGANIC PRODUCTS - A commitment since 1997

Our organic products are certified by CSQA: only agricultural and livestock systems that do not use chemicals or GMOs, respecting soil, natural resources and animal wellbeing.

## VEGETARIAN QUALITY - VEGAN and V-LABEL INTERNATIONAL

### Keeping up with new consumption styles

We adhere to a certification system that confirms the complete absence of ingredients of animal origin in our vegan and vegetarian products.

## GLUTEN-FREE - Guaranteed safety for intolerant consumers and people with celiac disease

Our products are certified "Gluten-Free" by CSQA. They are constantly monitored and verified to ensure safety and reliability for those with coeliac disease or following a gluten-free diet.

## HALAL - Inclusivity and respect for traditions

Halal certification guarantees that our ingredients, processes and facilities comply with Islamic ethical requirements in accordance with international Halal standards.

## RSPO - For sustainable palm oil

By adhering to RSPO certification, we promote responsible palm oil production that protects the environment and local communities, ensuring rigorous practices against deforestation, unfair labor and ecosystem damage throughout the value chain.

# *Sustainable in every way.*

We believe that doing business means evaluating the impact of our actions on communities, territories and the environment.

We reduce the environmental impact of our activities by investing in self-produced renewable energy, technological innovation in production plants, water management and waste reduction.

We carefully select suppliers and supply chain partners to guarantee safety, transparency, trust and respect for the rules.

We create products with selected ingredients, with no additives and with clear recipes, to promote more conscious and healthier dietary models.

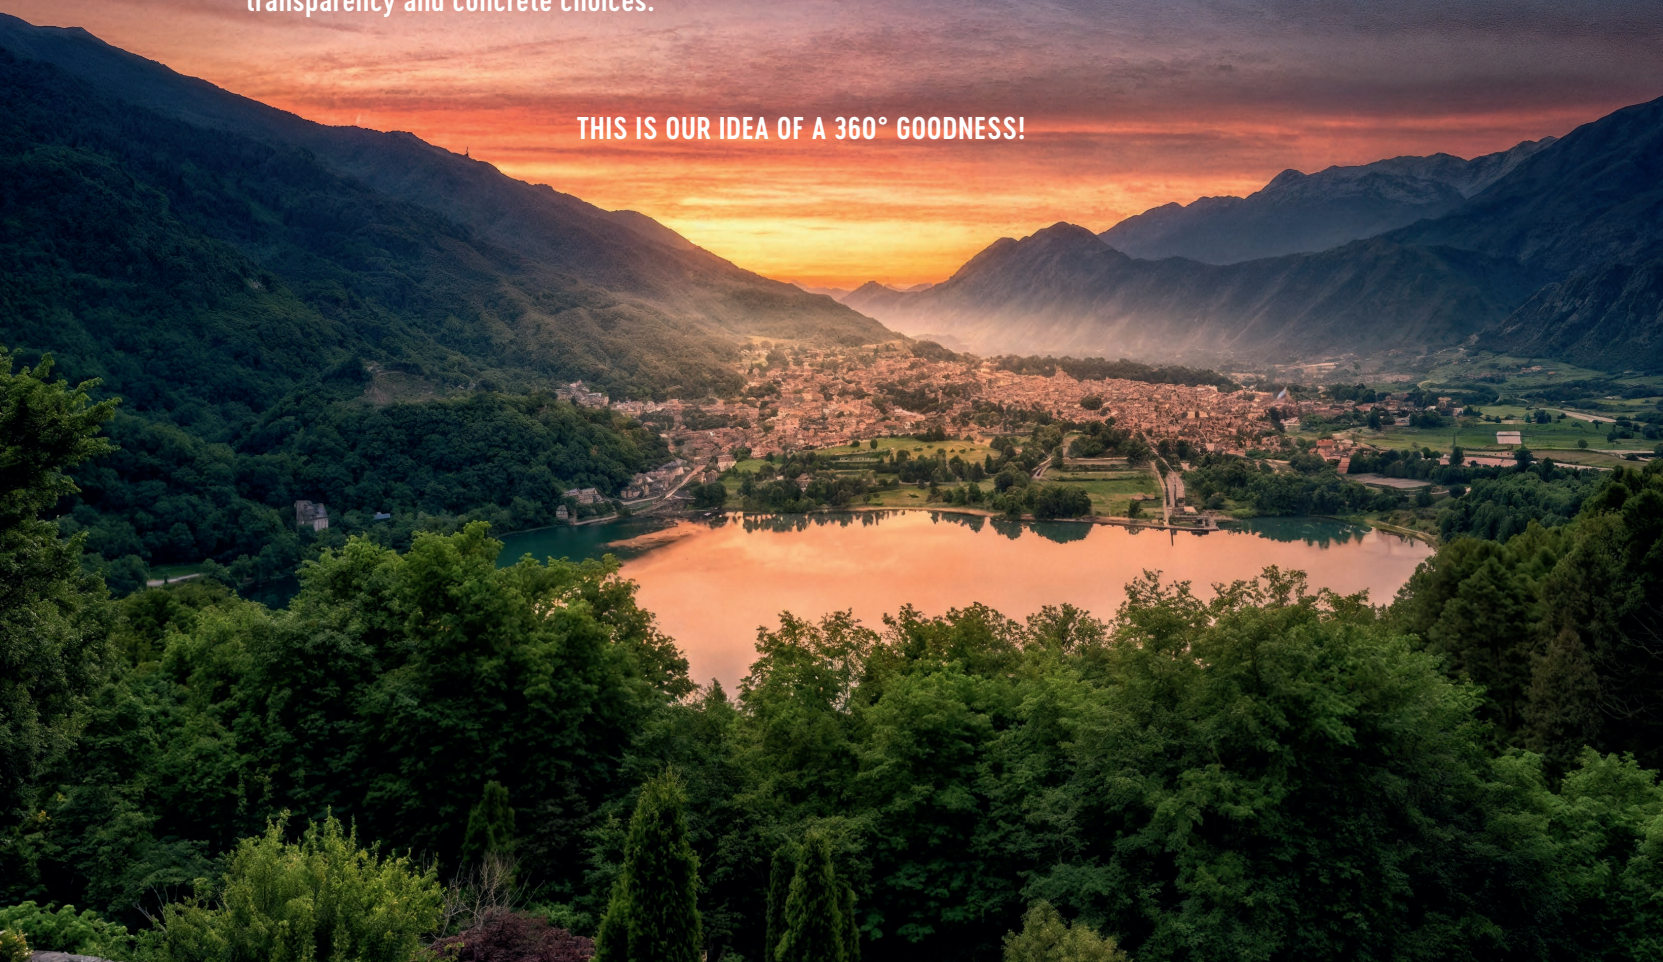

We value the role of cooking as a mean for wellbeing and inclusion through the development of certified products thought to meet even the most specific dietary needs.

We are committed to building a safe, inclusive working environment that respects people's wellbeing.

We support initiatives that generate value for the community: we collaborate with schools, sports and youth associations and cultural institutions.

This is how we shape, every day, a path of continuous improvement made of responsibility, transparency and concrete choices.

THIS IS OUR IDEA OF A 360° GOODNESS!

**The instant Granular Stocks that better develops your recipes.**

Only selected raw materials, processed with an exclusive method that preserves their qualities: a slow and gentle low-temperature drying process, followed by granulation, creates a product with authentic flavor and immediate solubility. A small pinch, during or at the end of cooking, will liven up every preparation naturally and deliciously. The yield of Bauer instant Granular Stocks is unmatched: one tablespoon per liter is enough for a truly excellent broth.

# How the authentic Bauer instant Granular Stocks are made.

Bauer produces authentic granular stocks, not simple powders. Everything begins with a valuable mixture of selected ingredients, slowly baked at low temperatures to obtain a compact biscuit, ideal for preserving the organoleptic properties of the ingredients. The result is an instant granular stock with immediate and uniform solubility, unmatched yield, perfect for enriching the flavour of any dish—even without baking it or cooking it on the stove .

## Vegan quality

Our Vegetalbrodo and Porcini Mushrooms Granular Stock are 100% vegan, certified by an independent third-party body (CSQA certificate – DTP107 no. 44892) in accordance with a standard recognised by the Italian Vegetarian Association.

## Sustainability in our new-packagings
